- ✓ High acoustic muting
- ✓ Fire retardant
- ✓ Sustainable
- ✓ Maintenance Friendly
- ✓ Many possibilities
- ✓ No daylight needed
- ✓ Dirt repellent

The Moss

Sustainable grown in nature reserve

The moss that Moswand.eu used for all Moss panels, moss paintings, moss walls and other moss creations is 'Cladonia stellaris'. This bushy Lichen Moss grows in Norway, Scandinavia, in a nature reserve of over 3200 km². The moss is harvested under State supervision and there is no damage to nature. Also for further processing there are no harmful resources used. The used moss grows about 10 mm every year. The moss that is used on the walls, panels and other creations, is approximately 50 mm high and has an age of at least 5 years.

After harvesting the moss is modified, making it permanently soft, elastic, dirt-resistant and fire retardant. At very low humidity (below 30%) the moss can dry out a little bit which reduces the elastic effect and makes it more vulnerable. Once the humidity rises again, the elasticity is restored.

Available in various colours

Green pigments and special colours

The colour of the moss is 'natural'. The moss is also available in several green tones: moss green, spring green, Middle green and old spring are the basic colours. Other colours are also available on request. The moss is coloured with non toxic permanent pigments.

A moss panel, moss wall or moss painting in your home or company

A moss panel is the basis for many application possibilities. That is how a moss painting can be made. By putting multiple panels against each other you can create a moss wall. It is a beautiful, easy-care and natural eye-catcher in every Interior. A moss wall does not need daylight and barely takes any space: you can also use a moss panel or moss painting so good in places where plants can't be placed because of lack of sunlight.

A moss panel or moss painting for every individual.

Wide range of sizes, finishes and colours

A moss panel or moss painting is available in many ranges, sizes, finishes and colours. If you opt for a small moss painting of 50 x 50 cm. as a special green accent in your home? Or you could have the moss walls of your office for example, 1000 x 300 cm? It is even possible to have a column completely covered in moss, or even a ceiling. If desired, We can complete your moss panel or moss wall with liana's ' a real ' jungle atmosphere '. Usually , the moss panels are delivered on flat plates, but curved or wavy moss creations are also among the options. The edges of moss paintings or moss panels can be finished with moss or with a wooden frame. In consultation there are other edge finishes possible. For example other colours or of another material such as aluminium. For every wish there is an ideal moss panel, moss wall or moss painting available for you!

Our Moss walls are made on wooden plates. It is also possible to make the moss-wall on fire retardant wood.

Mobile moss wall as a natural eyecatcher

Moss wall in an office, showroom or restaurant

A mobile moss wall forms a natural eye catcher in your Office, showroom, restaurant or in any desired location. They are compact and they take up very little space. In addition a (mobile) moss wall has a high functional value. You can use a mobile moss wall as a room divider in a office garden or as natural dividing wall in a restaurant. There are countless possibilities for mobile moss. Moss walls are not only decorative and functional, they also provide a pleasant atmosphere, a feeling of well-being and because of their high noise absorbency they provide good acoustics for a space.

The frame of the mobile moss wall is made of anodized aluminium; the feet are of sturdy galvanized steel. The moss walls are available with or without swivel castors. The standard size of the mobile moss walls is 180 x 180 cm. Other dimensions, (RAL) colours or prints for the frame are also possible on request. The 2 sides of the mobile moss walls are provided with moss. You can choose from various shades of green.

Many opportunities in moss creations

Moss logo, moss name, moss letter, moss number

The possibilities in Moss creations are countless. For example, if you want to put your logo in the Moss, or if you want your logo made of moss, signs made of moss, or other forms implemented in moss...? Do you choose for a moss creation in one of the available shades of green? Or do you choose for a striking different colour? Moswand.eu would like to make a moss creation that surpasses your expectations!
